

A day in my life

As a Community Health Worker

I Start most days
at my office in
Mars Hill at The
Medical Center

I am blessed with a 5X10 area that serves as my office space/food pantry/PPE storage space/hub of marvelousness and chaos

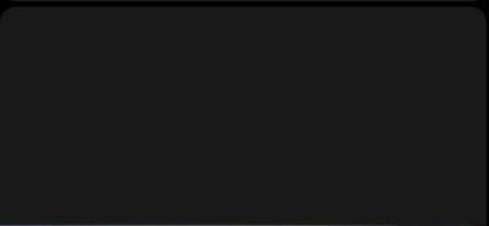

Working on the go occasionally requires meetings during food pick up

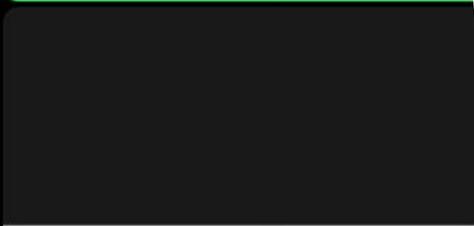

Jacque Ballard

Jess Rothenhoefer

nelle gregory

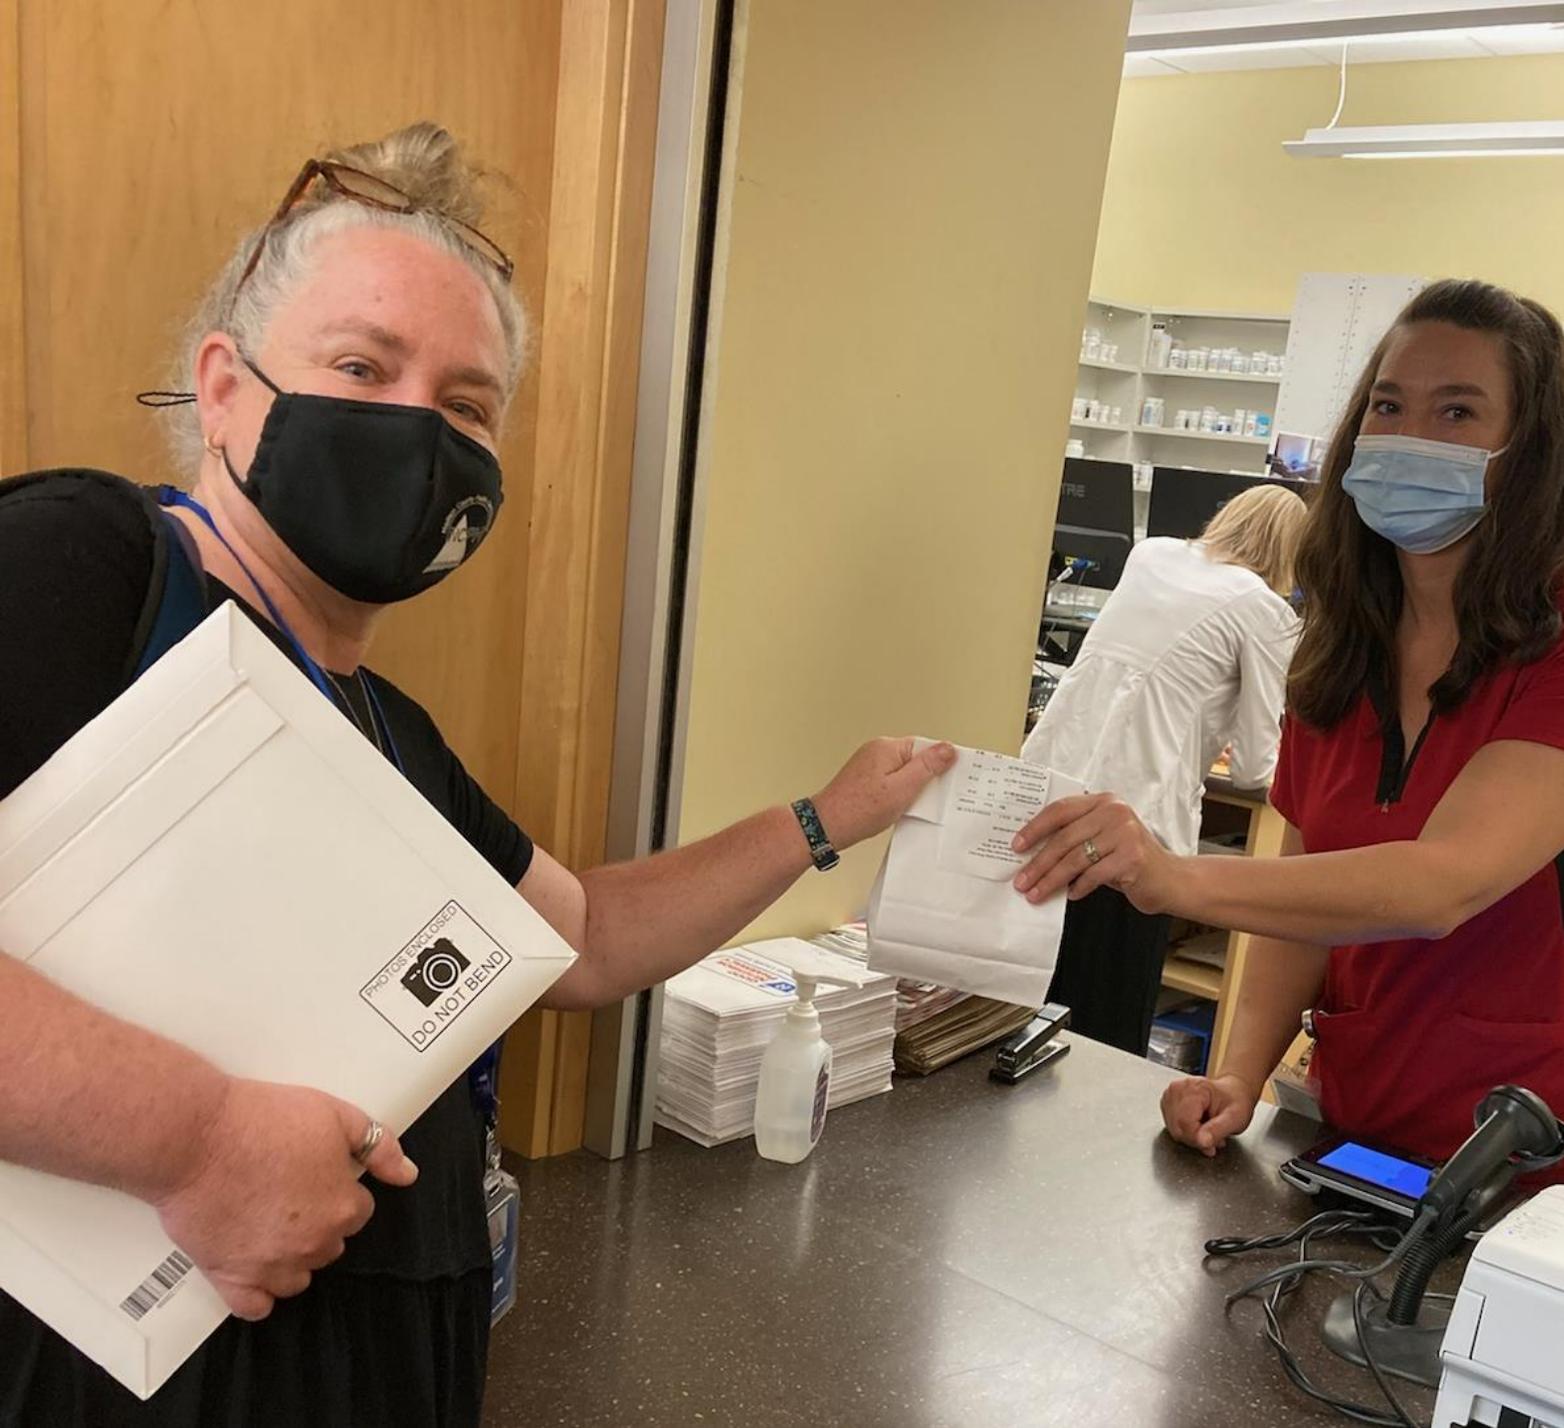

Joseph

Help people
fill out
paperwork

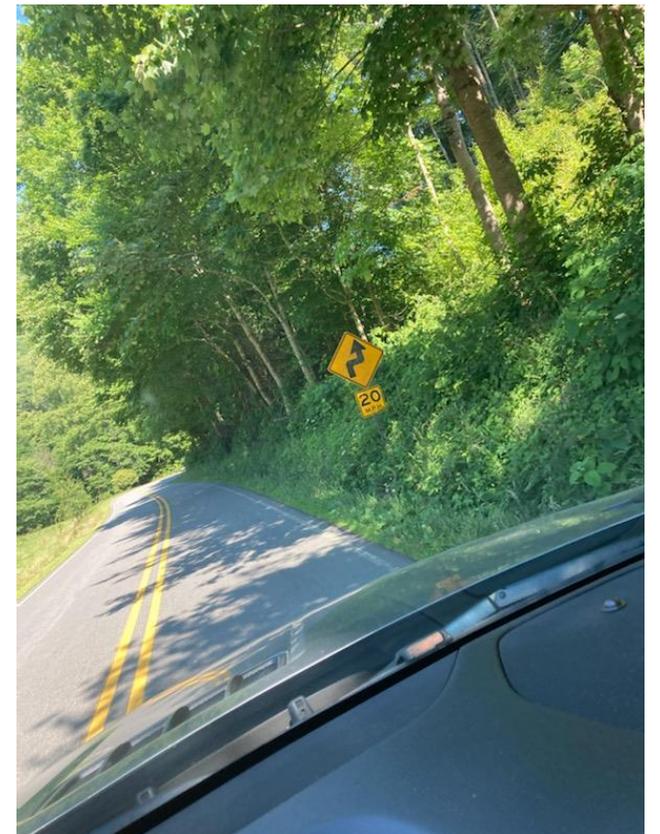

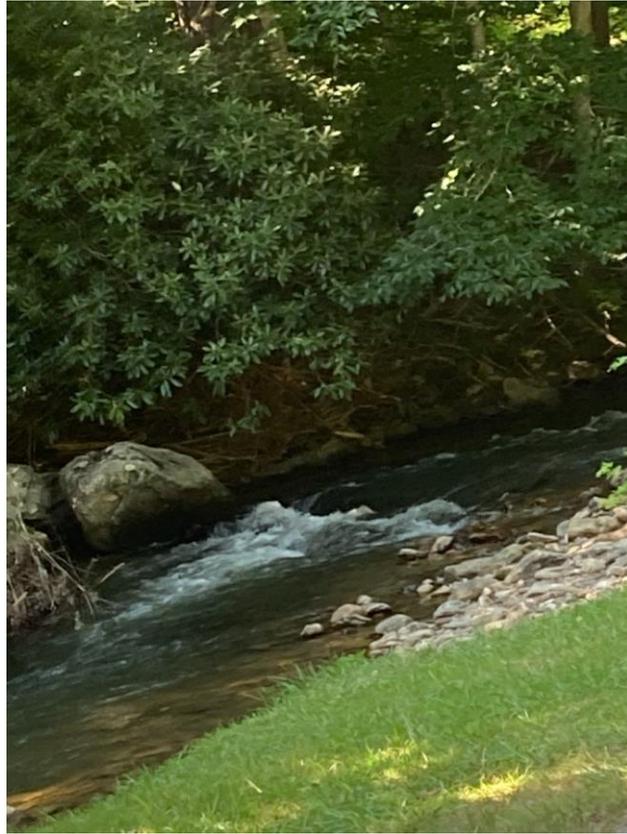

Pick up and
deliver
prescriptions

Occasionally there are hiccups in the system. Drive to the food pantry and they are closed.

Lots of days I drive all day. My Friday circle is 77 miles and takes most of the day.

Help people find resources for their needs.

- Housing
- Doctor appointments
- Dentist appointments
 - Medicaid
 - Food stamps
- Power bill assistance
- Water bill assistance

At the end of the day...

- I feel like my job is a gift. A gift of being allowed to be part of so many people's lives. I get to help people maneuver through and conquer obstacles in their lives. Together we find resources to help them with things they need like food, housing, insurance, legal representation, and so much more. I have not done the same thing twice since I started.
